6. RISK WARNING – ACKNOWLEDGEMENT OF RISK

Subject always to any applicable obligations in the Regulations, the Client is responsible for making an independent appraisal and investigation.

Contracts for Difference (CFDs) on spot Forex, spot precious metals, futures, shares or any other commodities available for trading are highly leveraged Financial Instruments and involve a high level of risk. It is possible that the Client loses all his/her invested capital. Therefore these products may not be suitable for all types of investors and the Client should ensure that he/she has understood the risk involved and if necessary the Client should seek independent expert advice.

The Company will assess whether a proposed Service is appropriate for the Client based solely on information supplied by the Client, including financial information, previous experience in investment products, risk tolerance and investment objectives. It is Client's responsibility to inform the Company in writing of any information which might reasonably indicate that this assessment should be changed. Furthermore it is the Client's responsibility to ensure that such information is kept up to date.

General views expressed to the Client (whether orally or in writing) on economic climate, markets, investment strategies or investments, trading suggestions, research or other such information are not to

be viewed as advice or Company recommendations and will not give rise to any advisory relationship. Any information which the Client may receive from the Company will be given in good faith merely for Client's information and are incidental to the provision of other services by the Company to the Client but the Company does not warrant that it is accurate or complete, or as its tax consequences, and the Company does not accept any responsibility for any loss, liability or cost which the Client might suffer or incur in relying on such information, whether caused by Company's negligence or through any other cause.

When the Client makes a decision to deal or undertake in any Financial Instrument, Service or Transaction, the Client should consider the risks inherent in such Financial Instrument, Service or Transaction, and in any strategies related thereto. The Client assessment of risk should include a consideration without limitation of any of the risks such as credit risk, market risk, liquidity risk, interest rate risk, foreign exchange risk, business, operational and insolvency risk, the risks of "over the counter" (as opposed to on-exchange) trading, in terms of issues such as the clearing house "guarantee", transparency of prices and ability to close out positions, contingent liability risk and regulatory and legal risk. The Client should also ensure that he/she has read and understood Company's Risk Disclosure Policy, any accompanying Financial Instrument documentation, for example terms sheets, offering memoranda or prospectuses, and the Financial Instrument's Contract Specifications for any further relevant risk disclosures.

The Client unreservedly acknowledge and accepts that, regardless of any information which may be offered by the Company, the value of any investment in Financial Instruments may fluctuate downwards or upwards and it is even probable that the investment may become of no value. The Client also unreservedly acknowledges and accepts that the price and value of Financial Instruments depends on fluctuations in the financial markets which are outside the Company's control.

The Client declares and warrants that he/she has read understood and accepts the following:

- i. Information of the previous performance of a Financial Instrument does not guarantee its current and/or future performance. The use of historical data does not constitute a binding or safe forecast as to the corresponding future performance of the Financial Instruments to which the said information refers.
- ii. Some Financial Instruments may not become immediately liquid as a result of reduced demand and the Client may not be in a position to sell them or easily obtain information on the value of these Financial Instruments or the extent of the associated risks.
- iii. When a Financial Instrument is traded in a currency other than the currency of the Client's

country of residence, any changes in the exchange rates may have a negative effect on its value, price and performance.

- iv. A Financial Instrument on foreign markets may entail risks different to the usual risks of the markets in the Client's country of residence. In some cases, these risks may be greater. The prospect of profit or loss from transactions on foreign markets is also affected by exchange rate fluctuations.
- v. A derivative financial instrument (i.e. option, future, forward, swap, contract for difference) may be a non delivery spot transaction giving an opportunity to make profit or a loss on changes in currency rates, commodity or indices.
- vi. The value of the derivative financial instrument may be directly affected by the price of the security or any other underlying asset which is the object of the acquisition
- vii. The Client must not purchase a derivative financial instrument unless he is willing to undertake the risks of losing entirely all the money which he has invested and also any additional commissions and other expenses incurred.

The Client acknowledges that the risk reducing orders or strategies such as "Stop Loss" or "Stop Limits" that are intended to limit losses to certain amounts may not always be executed because of unusual market conditions or technical limitations. Strategies using a combination of positions may be just as risky as or even riskier than simple "Long" or "Short" positions.

The Client unreservedly acknowledge and accept that he/she runs a great risk of incurring losses and damages as a result of the purchase and/or sale of any Financial Instrument and he/she accepts and declares that he/she is willing to undertake this risk.

The preceding paragraph does not constitute investment advice based on Client's personal circumstances, nor is it a recommendation to enter into any of the Services or invest in any Financial Instrument. Where the Client is unclear as to the meaning of any of the above disclosures or warnings, he/she is strongly recommended to seek independent legal or financial advice.

The Client acknowledges and accepts that there may be other risks than those mentioned above. The Client should also acknowledge and accept that he/she has read and understood Company's Risk Disclosure Policy which was provided to him/her during the account opening process and which is available on the Company's website.

To the extent permitted by law:

- i. The Company excludes any conditions, warranties and representations, express or implied, statutory or otherwise as to condition, satisfactory quality, performance, fitness for purpose or otherwise regarding the Company's Electronic Systems;
- ii. The Company will not be liable for any loss, liability or cost (including consequential loss) suffered or incurred by the Client as a result of instructions given, or any other communications being made, via the internet;
- iii. The Client will be solely responsible for all orders, and the accuracy of all information, sent via the internet using Client's access codes or any personal identification issued to the Client; and
- iv. The Company is not liable for any damage or loss that may be caused to any equipment or

software due to any viruses, defects or malfunctions in connection with the access to or use of the Company's Electronic Systems.

The Company shall maintain its Electronic Systems in such a manner as to ensure its efficient and effective operation. To this respect the Company may be required to effectuate maintenance, replacements, updates, upgrades, fixes and patches to its Electronic Systems. Such actions may cause the Company's Electronic Systems to be inaccessible to the Client for a period of time. The Company bears no liability for any damages or losses, including financial losses, to the Client caused by any action described herein or by any unavailability of, or interruption to the normal operation, of the Company's Electronic Systems.

The Company shall have the right to suspend or terminate the Client's access to Company's Electronic Systems if, in the Company's discretion acting reasonably, the Client fails to perform its payment obligations in respect of any Company's Electronic Systems or the connection has been used by the Client in such a way that it adversely affects the Company or any third party, or it has been used other than in compliance with the provisions hereof. Unacceptable usage of the Company's Electronic Systems includes, without any limitations, unauthorised use of market data, voluntary granting of access to the terminal to unauthorised persons, execution of suspicious transactions within the meaning of the Applicable Regulation, etc.

8. CLIENT'S ORDERS & INSTRUCTIONS

The Client understands and acknowledges that all orders executed between the Client and the Company are orders executed outside a regulated market or MTF.

The Client may give instructions to the Company in (a) writing and duly signed or (b) by electronic means provided that the Company is satisfied, at its absolute discretion, of the caller's/Client's identity and clarity of instructions. The Company may refuse the Client the execution of Transactions in case of lack or clarify or if the instructions and do not include essential operations such as opening position, closing position, changing or removing Orders.

In case of an Order received by the Company by means other than through the Electronic Trading Platform, the Order will be transmitted by the Company to the Electronic Trading Platform and processed as if it was received by the Client through the Electronic Trading Platform.

The Client may send instructions for the following types of orders:

- A market order, and/or

- A pending order

A stop loss and/or take profit may be attached to a market order only after the market order has been confirmed as an open position.

In terms of pending orders the Client may send an instruction for:

- Buy Limit:** An order to buy a contract at a specified price lower than the current market price; the price is set above the current market price and the order is triggered when the market price reaches the 'limit price' instructions. Buy Limit orders once triggered are executed at the 'limit price' or better.
- Sell Limit:** An order to sell a contract at a specified price higher than the current market price; the price is set below the current market price and the order is triggered when the market price reaches the 'limit price' instructions. Sell Limit orders once triggered are executed at the 'limit price' or better.
- Buy Stop:** An order to buy a contract; the price is set above the current market price and is triggered when the market price reaches the buy stop instruction. Once the stop level is reached the order will be treated as a market order and will be executed at the current market price that is available.
- Sell Stop:** An order to sell a contract; the price is set lower than the current market price and is triggered when the market price reaches the sell stop instruction. Once the stop level is reached the order will be treated as a market order and will be executed at the current market price that is available.

It should be noted that trading of certain Financial Instruments occurs during specific timeframes. The Client is responsible to regularly visit the Contracts specifications in the Company's Website of such instruments for further details, before trading.

In the absence of any other agreement between the Company and the Client, the Company will act on any instruction which it reasonably believes to have been given, or purporting to have been given by the Client or any person authorised on Client's behalf, without enquiring as to the genuineness, authority or identity of the person giving or purporting to give such instructions.

The Client must ensure that any instructions given to the Company is clear and intelligible. If the Client does not provide such instructions promptly, clearly and in an intelligible form, the Company may, at its absolute discretion, ask the Client to confirm the instruction in writing, in such form as the Company may request, before it acts on it, or take such other steps at Client's cost as the Company considers necessary or desirable for its own or Client protection, or take no action on Client's instructions. The Company is not obliged to accept instructions to enter into a Transaction unless it is required to do so by any Applicable Regulations. If the Company declines to enter into a Transaction, it is not obliged to give a reason.

The Client acknowledges and agrees that the Company shall be entitled to record all conversations/communications between the Client and the Company or any representative thereof and maintain such records at its discretion and without further notice (unless required to do so by Applicable

Regulation). Such records will be the Company's property and shall be accepted by the Client as evidence of his/her orders or instructions. The Company has the right to use recordings and/or transcripts thereof for any purpose which it deems desirable.

The Company reserves the right, at its absolute discretion to confirm in any manner that it may determine the instruction and/or Orders and/or communications sent through the Trading Platform. By entering into this agreement the Client accepts the risk of misinterpretation and/or mistakes in the instructions and/or Orders through the Trading Platform, regardless of how they have been caused, including but without limitation, technical or mechanical reasons.

The Client has the right, at his own risk, to use a Power of Attorney to authorise a third person (representative) to act on behalf of the Client in all business relationships with the Company as defined in this Agreement provided that:

- i. the Client has informed the Company in writing in such a manner as the Company may at any time determine
- ii. the authorised person has been approved by the Company
- iii. that both the Client and the authorised person have fulfilled such conditions, including the execution of such document, that the Company may at any time and at its discretion determine.

Unless there is an expiry date on the Power of Attorney or the Company receives a written notification from the Client for the termination of such representative authorisation, in such a manner as the Company may at any time determine, the Company may continue accepting instructions and/or Orders given by such representative on behalf of the Client, and the Client shall recognise such Orders as valid and binding. The written notification by the Client for the termination of the authorisation of the representative must be received by the Company with at least two (2) Business Days' prior notice.

The Company reserves the right at its discretion and without notice to the Client, to refuse to accept instructions from any authorised person and to consider the appointment of any such authorised person as terminated. Furthermore the Company may, at any time and at its discretion, reject any existing and previously accepted power of attorney between the Client and any authorised representative, and may reverse any relevant Transactions and restore the affected Trading Accounts' Balance.

The Client can open and close a position via its Company's Trading Platform and add or modify orders by placing "Buy Limit", "Buy Stop", "Sell Limit", "Sell Stop", "Stop Loss", and/or "Take Profit" on any Financial Instrument offered by the Company.

Once given, instructions may only be withdrawn or amended with Company's consent. The Company

can only cancel Client's instructions if the Company has not already acted upon them. If, after instructions are received, the Company reasonably believes that it is not practicable to act on them within a reasonable time, or the Company reasonably believes that it is in Client's best interest not to act on such instructions, the Company may defer acting upon those instructions until it is in Company's reasonable opinion, practicable (or in Client's best interest) to do so, or notify the Client that the Company declines to act upon such instructions.

The status of the Orders is always shown on the Electronic Trading Platform. Any type of order, as described in Company's Order Execution Policy which is unavailable through the Electronic Trading Platform will be automatically rejected by the Company.

The Company will not be liable for any losses resulting from any delay or inaccuracy in executing Client's instructions, nor in deferring acting or refusal to act.

The Company shall not be liable for any loss, expense, cost or liability (including consequential loss) suffered or incurred by the Client as a result of instructions being given, or any other communications being made via the internet or other electronic media. The Client will be solely responsible for all orders, and for the accuracy of all information, sent via such electronic media using Client's name or personal identification number. The Company shall not be held responsible for delays or inaccuracies in the transmission of any instruction or other information or the execution of orders due to any cause whatsoever beyond the reasonable control of the Company.

The Client's orders are executed at the "BID"/"ASK" prices offered by the Company, derived from its Liquidity Providers and which the Client can see in the Electronic Trading Platform. The Client places his/her order at the prices he/she sees on his/her Client terminal and the execution process is initiated. Normally the transaction is executed at the prices the Client can see on his/her Client terminal. Due to the high volatility of the markets as well as the internet connectivity between the Client terminal and the server, the prices requested by the Client and the current market price may change, during the confirmation process. In this event, Client's instruction may be executed at a price that differs from the price requested. However, the Instructions shall be executed by the Company at the best available price derived from Company's Liquidity Providers. The Company reserves the right to void any Transaction if the corresponding order has been cancelled by a Liquidity Provider.

Under certain trading conditions it may be impossible to execute Orders on a Financial Instrument at the declared price. In this case the Company reserves the right not to execute the Order and/or execute the Order at the best available price derived from Company's Liquidity Providers. This may occur, for example, at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted. Or this may occur in the trading session start moments (opening gaps). So as a result, placing a "Stop—Loss" Order will

not necessarily limit the Client's losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price.

In case of force-majeure, hacker attacks or other illegal actions against the Electronic Trading Platform or the equipment of the Company, and also in case of a suspension of trade in the financial markets concerning Financial Instruments, the Company may suspend, freeze or close the Client's positions and request the revision of the executed Transactions.

By entering into this Agreement the Client duly acknowledges and agrees that:

The Company's trading hours may be different from the hours that a specific Financial Instrument is tradable in any other market. The Company reserves the right to take any action, at its sole discretion, that includes but it's not limited to execution, modification, opening and closing of any of the Clients' positions as a result of the price movements outside Company's Trading Hours.

By entering into this Agreement the Client acknowledges that he/she understands and agrees that the Company is the sole counterparty and therefore when the Company executes a transaction for (or with) the Client it may be engaging in a similar trading for (or with) other clients, Company's affiliated companies, or for own account, subject to the provisions of Applicable Regulation. Even though the Company may transmit the Client's order to the Liquidity Provider(s) for execution, the Company will still be the contractually counterparty to the Client.

To the extent permitted by Applicable Regulation, the Client agrees that the Company will not owe the Client any duties of best execution in respect of a regulated investments services falling outside the scope of the FSP.

There are a number of situations where the Company will not owe the Client any duties of best execution. These include without limitation the following scenario: when the Client gives specific instructions to the Company and the Company executes Client's order in accordance with those instructions, the Company will have discharged its duties to the extent of those instructions.

When executing orders on Client's behalf the Company will do this in accordance with its Order Execution Policy as amended from time to time to which the Client consent. Company's Order Execution Policy is presented together with this Agreement. The latest version of Company's Order Execution Policy will also be available on the Company Website or from Client's usual contact with the Company.

Considering the volume of the Client's order and the current market conditions, the Company reserves the right to proceed with partial execution of the Order.

The Company executes Client's orders at the best Bid and Ask prices as derived from Company's

Liquidity Providers. The Company relies on third party liquidity providers for prices and available volume (“market depth”) and therefore execution of Client’s orders will depend on the pricing and available liquidity of the providers. The Spread is not fixed and will vary depending on market conditions and streaming prices/liquidity received by the Company from its Liquidity Providers.

The level of Swap rates may vary in size and change depending on the market conditions and at Company’s discretion.

The Company reserves the right to disable and/or enable swap free trading for Client’s Trading account at any given time if it has enough reasons to believe that the Client is abusing the Company’s systems and trading conditions or where the Client’s trading strategy imposes a threat to the Company’s smooth operation of its trading facilities.

The one (1) standard Lot size is the measurement unit specified for each Financial Instrument traded in the Electronic Trading Platform. The Company only accepts orders that are placed in the Lot Sizes described in Contracts specifications in the Company’s Website. The Company may change the Contract Specifications at any time depending upon the market situation. The Client further acknowledges that it is his sole responsibility to review the contract specifications located on the Company’s Website before placing any order with the Company.

The Client acknowledges that the Company has the right, at its absolute discretion, to modify at any time Client’s trading account leverage to match the one provided by the Liquidity Providers, without Clients’ consent, either permanently or for a limited period of time by informing the Client by written notice sent either by regular mail or email, or through the Electronic Trading Platform.

By entering into this Agreement, the Client acknowledges that he/she has read, understood and accepts the “Leverage Levels” as these are described in the Company’s Website, and that the Client’s account leverage may be changed by the Company based on Client’s deposit amount or exposure on a single Financial Instrument and to match the one provided by the Liquidity Provider(s).

Trading operations using additional functions/plugin made available through the Electronic Trading Platform such as “Trailing Stop” or “Expert Adviser” are executed completely and exclusively under the Client’s responsibility and at his/her own risk, as they depend directly upon the Client, and the Company bears no responsibility whatsoever. The Company reserves the right to accept or reject at its own discretion the use of additional functions/plugin of the Electronic Trading Platform and in case this additional functions/plugin affect the reliability and/or smooth operation and/or orderly of the Company’s Trading Platform to immediately terminate by way of written notice the relationship with the Client.

The Company has the right, at its own discretion, to show a notification in regards to the Client’s

position in the Electronic Trading Platform at margin level of equal or less than 80% and to start closing positions automatically at market price at margin level of equal or less than 50%. In case of Clients that requested Islamic accounts the Company has the right to show a notification in regards to the Client's position in the Electronic Trading Platform at margin level of equal or less than 20% and to start closing positions automatically at market price at margin level of equal or less than 5%. The Client acknowledges that the Company has the right to change the Client's stop out margin level to match the one provided by the Liquidity Provider(s). Such an event will be disclosed to the Client by the Company via its internal mail or by email.

In case of absence of any trading activity within two (2) years of the Client's account shall be terminated.

If any underlying asset/security of the Financial Instrument offered by the Company becomes subject to any adjustments as a result of any of the events described below (referred to as "Corporate Events"), the Company will determine the appropriate adjustment, if any, to be made to the opening/closing price, size, value and/or quantity of the corresponding transaction, including the level or size of the corresponding order or even close open trades prior to the Events. This adjustment is made in order to (i) account for the diluting or concentrating effect necessary to preserve the economic equivalent of the rights and obligations of the parties under the transaction immediately prior to that Corporate Event, and/or (ii) replicate the effect of the Corporate Event upon someone with an interest in the relevant underlying asset/security, to be effective from the date determined by the Company.

"Corporate Events" means any of the following events by the declaration of the issuer of the asset/security:

- i. A subdivision, consolidation or reclassification of shares, a share buy-back or cancellation, or a free distribution of bonus shares to existing shareholders, capitalization or share split or reverse share split or similar event;
- ii. A distribution to existing holders of the underlying shares of additional shares, other share capital or securities, granting the right to payment of dividends and/or proceeds from the liquidation of the issuer equally proportionate to such payment to holders of the underlying shares, securities or warrants granting the right to receive or purchase shares for less than the current market price per share;
- iii. Any other event regarding shares analogous to any of the above events or otherwise having a diluting or concentrating effect on the market value of shares;
- iv. Any event analogous to any of the above events or otherwise having diluting or concentrating effect on the market value of any security not based on shares; or
- v. Any event that is caused by a merger offer made regarding the company of the underlying

asset/security.

The Company bears no responsibility for notifying the Client regarding announcements of Corporate Events.

If any underlying asset/security of the Financial Instrument offered by the Company becomes subject to a specific risk resulting in a predicted fall in value, the Company reserves the right to restrict short selling or even to withdraw the specific Financial Instrument from the Company's trading Platform.

Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Transaction (and/or the level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment by written notice sent either by regular mail or email, or through the Electronic Trading Platform as soon as it is reasonably practicable.

In the case where the Client has any Open Positions on the ex-dividend day for any of the underlying assets/securities of the Financial Instrument, the Company has the right to close such positions at the last price of the previous trading day and open the equivalent volume of the underlying Financial Instrument at the first available price on the ex-dividend day. In this case, the Company will inform the Client of the said adjustment, by written notice sent either by regular mail or email, or through the Electronic Trading Platform as soon as is reasonably practicable, and no Client consent will be required.

Where the Company determines that the Client either once-off or systematically takes advantage of delayed or wrong price feeds by trading on them, the Company reserves the right (a) to adjust the price(s) and/or the spread(s) provided to the Client, (b) to delay the price confirmation, (c) to restrict Client's access to the Trading Platform and/or provide only manual quotes, (d) to retrieve any historic profits from the Client's trading account, provided that it can document that such trading profits have been obtained as a result of a price(s) abuse at any time during the relationship with the Client, (e) to immediately terminate by way of written notice the relationship with the Client.

The Company reserves the right to refuse the execution of a pending order and/or modify the opening/closing price of an order in case a technical or any other type of error occurs.

The Client accepts that any refusal by the Company to execute any of his/her Order shall be without prejudice and shall not affect any obligation which the Client may have towards the Company or any right which the Company may have against the Client or his assets. The Client accepts and acknowledges that the Company is not responsible in case a Client's order is delayed or not even executed at the price
